

CREATE TABLE

VIA: https://docs.oracle.com/cd/B28359_01/server.111/b28310/tables003.htm

To create a new table in your schema, you must have the CREATE TABLE system privilege. To create a table in another user's schema, you must have the CREATE ANY TABLE system privilege. Additionally, the owner of the table must have a quota for the tablespace that contains the table, or the UNLIMITED TABLESPACE system privilege. Create tables using the SQL statement CREATE TABLE.

USO: CREATE TABLE <TABLE> (<COLUMN_1>, <COLUMN_2>, ...);

Este comando SQL nos permitirá crear una nueva tabla <TABLE> con N columnas <COLUMN_N>.
